

European Alliance of Medical and Biological Engineering and Science

EAMBES is a non-profit scientific society to promote Biomedical Engineering (BME) and Medical and Biological Engineering and Sciences (MBES) in Europe.

EAMBES is also affiliated to the International Federation of Medical and Biological Engineering (IFMBE), which is member of the International Union for Physical and Engineering Sciences in Medicine (IUPESM).

Members are Professional and Scientific Societies, Hospitals, Universities or research institutions across Europe. Today EAMBES represents **29 national & transnational societies** and **37 academic and research institutions** (4 new members in 2021), and through them a vast number of biomedical engineers and scientists working primarily in research and higher education.

EAMBES VISION

Medical and biological engineering and science are major enablers of modern medicine, which has made its main advancements in the past decades mainly because of the main output of BME. Our community has direct impact on quality of life, safety and cost-effectiveness of healthcare services, with our effort in research, innovation, assessment, procurement and management of biomedical engineering main products, which are biotechnologies and medical technologies (MedTech) such as medical devices, personal protective equipment and digital health.
